

High-Speed HDMI Cable with Gold Connectors – 4K UHD, 3D Support, 5M Length

Experience Crystal-Clear Audio and Video with Premium Build Quality and Lightning-Fast Performance

The **High-Speed HDMI Cable with Gold Connectors (5 meters)** is designed for users who demand superior performance, exceptional durability, and flawless audio-visual transmission. Whether you're connecting your TV, gaming console, projector, or home theater system, this cable guarantees ultra-clear 4K UHD resolution and immersive sound without lag or signal loss. Built to deliver unmatched performance across all modern HDMI-enabled devices, it's the perfect solution for home entertainment, office presentations, and professional multimedia setups.

Unmatched 4K Ultra HD Video Quality

Enjoy a truly cinematic experience right at home. This **High-Speed HDMI Cable** supports **4K UHD resolution (3840 × 2160)** at 60Hz, ensuring ultra-sharp visuals with vibrant colors, deep contrast, and outstanding clarity. Whether you're streaming movies, gaming in 4K, or editing high-definition content, every pixel is transmitted perfectly without compression or distortion. The result is a rich, lifelike viewing experience that brings your screen to life.

Full 3D and HDR Support

Step into the next dimension of entertainment with **3D support**, making this cable ideal for 3D Blu-ray players, projectors, and compatible TVs. Combined with **HDR (High Dynamic Range)** capability, the cable enhances brightness, contrast, and color depth — ensuring more realistic images with enhanced details in both dark and bright scenes. If you're a gamer, movie lover, or content creator, this HDMI cable lets you experience visuals exactly as they were meant to be seen.

Premium Gold-Plated Connectors for Maximum Signal Integrity

What sets this HDMI cable apart is its **24K gold-plated connectors**, which provide excellent corrosion resistance and ensure a stable connection over time. Gold conductors are known for their superior conductivity and durability, minimizing signal interference, oxidation, and wear caused by frequent plugging and unplugging. This ensures consistent high-speed data transfer and a long lifespan, even with heavy daily use.

High-Speed Data Transmission and Bandwidth

Engineered to meet **HDMI 2.0 standards**, this cable offers a **bandwidth of up to 18 Gbps**, allowing seamless transmission of 4K video, 3D content, and multi-channel audio without lag or

buffering. The cable also supports **Ethernet over HDMI**, **Audio Return Channel (ARC)**, and **CEC (Consumer Electronics Control)**, giving you an all-in-one solution for connecting and controlling multiple devices efficiently.

Enhanced Audio Experience

The High-Speed HDMI Cable doesn't just deliver stunning visuals — it also supports **advanced audio formats** like Dolby TrueHD, DTS-HD Master Audio, and multi-channel surround sound. This ensures crystal-clear, immersive audio that complements your high-definition visuals. Whether you're enjoying a movie night, gaming session, or professional presentation, you'll get precise sound quality every time.

Built for Strength and Durability

Durability is at the core of this cable's design. It features a **thick, flexible PVC outer jacket** that protects the internal wiring from bending, twisting, and tangling. The **triple-layer shielding** effectively reduces electromagnetic interference (EMI) and radio frequency interference (RFI),

keeping your signal clean and stable. With reinforced strain relief near the connectors, this HDMI cable is built to handle everyday use while maintaining optimal performance over the long term.

Compatible with most devices

TV

Laptop

Displayer

Desktop

DVD

Projector

Generous 5-Meter Length for Flexible Connectivity

With a **length of 5 meters**, this HDMI cable offers the perfect balance between reach and signal stability. It's long enough to connect devices across your room — such as from your TV to a gaming console, AV receiver, or projector — without compromising on speed or quality.

Whether in a living room, office, or classroom setup, this cable gives you the flexibility you need for an organized and clutter-free installation.

Universal Compatibility

The **High-Speed HDMI Cable** is universally compatible with all HDMI-enabled devices, including:

- 4K and Full HD TVs
- Blu-ray and DVD players
- PlayStation, Xbox, and gaming PCs
- Projectors and monitors
- AV receivers and soundbars
- Laptops, desktops, and streaming devices (Roku, Chromecast, Fire Stick)

Simply plug and play — no software or drivers required.

Why Choose This HDMI Cable?

- Supports 4K UHD @ 60Hz and Full HD 1080p
- 3D and HDR compatible
- 18 Gbps high-speed data transfer
- Gold-plated connectors for stable signal
- Triple shielding for interference-free performance
- Durable and flexible 5M cable design
- Plug-and-play universal compatibility
- Enhanced audio and Ethernet support

Perfect for Every Setup

Whether you're setting up a home cinema, gaming station, office presentation system, or classroom display, this cable guarantees stable, high-speed performance every time. With its superior build quality, extended length, and advanced technology, the **High-Speed HDMI Cable with Gold Connectors (5M)** is an essential accessory for anyone seeking the best visual and audio experience.
